

I am writing in hopes to save the KLOVE radio station, hoping it will not be replaced by an LPFM. This station serves the community by offering clean music that is appropriate for the whole family. KLOVE is the only station in the Coachella Valley that provides the type of music that can appeal to adults and young people alike. Much of the music that is offered by other stations can be more offensive than entertaining. KLOVE offers uplifting and encouraging music. Something that today's society needs. Not more garbage! Thank you.
